Art Unit: 1654

1. This application is in condition for allowance except for the following formal matters:

The disclosure is objected to because of the following informalities: At page 1, line 11, "fluorescent" is misspelled. At page 2, lines 19 and 25, "chlorobenzoxazole" is misspelled. At page 2, line 26, "oC" should be re-written as "°C". Appropriate correction is required.

The amendment filed August 31, 2001 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The sequence listing filed August 31, 2001 constitutes new matter because there are no sequences in this application. The requirement for a sequence listing mailed by the Office on July 5, 2001 was in error because listings and collections of individual amino acids (see Figure 1 and page 4 of the specification) do not constitute sequences which are subject to the sequence disclosure rules. The examiner apologizes for any inconvenience this requirement for a sequence listing may have caused Applicant.

Applicant is required to cancel the new matter in the reply to this Office Action.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. The proposed amendment to the specification filed November 20, 2003 was not entered because it was not submitted in appropriate form under 37 CFR 1.121(b). The amendments to the specification did not contain an instruction before each replacement paragraph which

Art Unit: 1654

unambiguously identifies the location of the paragraph to be replaced. See 37 CFR

1.121(b)(1)(i) and the sample amendment format located at

<http://www.uspto.gov/web/offices/pac/dapp/opla/preognotice/formatrevamdtprac.pdf>.

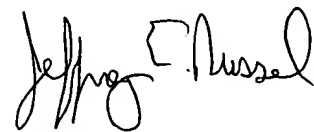

The response to the new matter objection set forth at page 3 of the amendment filed November 20, 2003 was not entered because a request to withdraw the sequence listing is too inexact as to what is to be done. Applicants should explicitly request that the Sequence Listing filed August 31, 2001 be canceled.

3. Claim 2 is allowed.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey E. Russel at telephone number (703) 308-3975. After January 6, it is recommended that Applicants attempt to contact the examiner at the new phone number if they are unable to reach him using the old number.
